Durian is one of the biggest fruit tree in the world and exhibited extraordinary fruit bearing capacity. Thus, the fertilizing practices influences the quality and quantity of fruit greatly. Greenfeed® slow release fertilizer is a series of one-stop full elements fertilizer to fulfill vegetative, reproductive growth and fruit boosting purposes of grower.

Through the PCT technique incorporated, absorption rate of the fertilizer would be far more improved than common fertilizer. Greenfeed® also help to minimize issues such as burden on fertilizing and labor shortage.
